

Product Overview

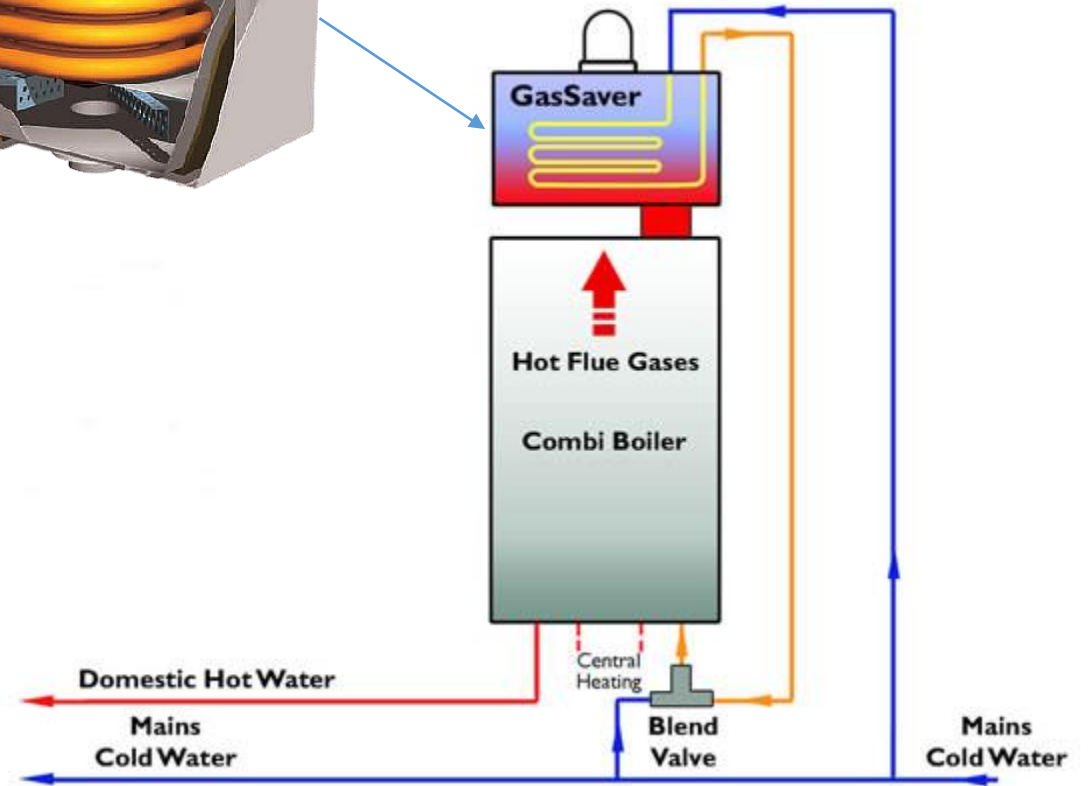

What is GasSaver?

- Canetis GasSaver captures and reuses waste heat that ordinary condensing boilers discharge into the atmosphere via the flue (visible as excessive 'pluming').
- Annual domestic utility bill savings of approximately £180 per household.
- Provides improvements in performance for Domestic Hot Water efficiency and a 37% performance gain all whilst saving you money & reducing carbon emissions.
- Recognised in UK Boiler Plus from April 2018 within the compulsory measures.
- Reduces UK SAP Dwelling Emissions Rate (DER) by up to 24%

“Combi boilers using the GasSaver stored flue gas heat recovery system are the most efficient boilers available today”

How GasSaver works

Benefits of GasSaver

Canetis GasSaver benefits include:

- *Low cost – ROI in under 3 years from lower utility bills*
- *Easy installation by a qualified GasSafe fitter*
- *Enjoy faster hot water delivery around your home*
- *Suitable for new build, boiler replacement or retro-fit*
- *Zero lifetime maintenance & cost post installation*
- *Requires no mains electricity*
- *No user intervention required, “it just works”*

“GasSaver is one of the most practical and sensible ways for homeowners and fuel bill payers to become energy efficient and save money”

And finally -

1. GasSaver is manufactured to the highest quality standards, is approved under the Water Regulations Advisory Scheme (WRAS), and is recommended by the Energy Savings Trust.
2. GasSaver (a [FGHRS](#)) benefits are at their optimum in winter months when savings are most needed. As your gas boiler consumes more gas, when GasSaver recovers more wasted energy, which significantly reduces CO₂ emissions and cuts fuel bills.
3. A key benefit of GasSaver is that it reduces the amount of wasted lukewarm water that a boiler produces. A boiler fitted with a GasSaver produces useful hot water faster, which means households see a drop in their water consumption and water bills.
